(b) a Ruler or a subject of a State in India.

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

Provided also that a Ruler or a subject of a State in India cannot be appointed unless he has obtained the declaration required under section 96-A of the Government of India Act.

3. The guardians of a candidate selected for admission to the Indian Military Academy will be required to covenant with the Secretary of State in Council that the parent or guardian of the cadet will discharge from his own personal resources all the financial obligations attaching to the training of his son or ward at the Academy, and that in the event of failure to comply with certain contingencies set forth in an Indenture relating to the completion of the course at the Indian Military Academy, and thereafter, the acceptance of a commission in the Indian Land Forces, and the period he is required to hold such a commission, he will pay the full cost which the Government of India shall have expended on the education of the cadet at the Academy. Should it be found that the declaration in regard to discharge of financial obligations at the Indian Military Academy is false in any respect, the cadet will be liable to immediate removal from the Academy.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor General in Council, be limited to such number as the Governor-General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers, in the Indian Army.

5. A candidate for this examination must attain the age of 18, and must not attain the age of 20, by the first day of November 1935.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Indian Army. A candidate who, after examination by a Medical Board, is found not to satisfy these requirements will not be accepted for admission to the Academy.*

* Only successful candidates will be medically examined. Candidates are recommended to consult a Civil Surgeon as to their physical suitability before entering for the examination.

7. A candidate must satisfy the Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Indian Army.

8. The decision of the Public Service Commission as to the eligibility or otherwise of a candidate shall be final.

9. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

10. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for admission.

11. (a) A candidate who competed in the examination held in March/April 1935, and failed to obtain a qualifying mark, will not be allowed to compete at the examination to be held in October 1935, unless he is ineligible by age to compete at any later examination.

(b) No candidate who fails to obtain a qualifying mark at this examination will be allowed to compete at the next examination unless that examination is the last at which he would be qualified by age to compete.

12. Candidates must pay the following fees:—

(i) Rs. 7-8-0 with the application form,

(ii) If accepted for admission to the examination, Rs. 52 immediately after the receipt of the certificate of admission.

No claim for a refund of these fees will be entertained.

PUBLIC SERVICE COMMISSION (INDIA).

NOTICE.

A competitive examination will be held in Delhi on the 21st October, 1935, and subsequent days, for entry to the Indian Military Academy at Dehra Dun, in the term beginning on the 1st February 1936, and also for entry to the Royal Indian Navy.

2 The examination will be a combined examination for the purpose of filling vacancies in the Indian Military Academy and the Royal Indian Navy. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both the Indian Military Academy and the Royal Indian Navy he will ordinarily be assigned to the one for which he expressed a preference in his application; but the Government of India reserve power to assign him to either.

3. At the examination 15 vacancies will be offered for entry to the Indian Military Academy. The Governor-General in Council, however, reserves to himself the right to fill the last three vacancies by nomination from among those who have qualified but failed to obtain sufficient marks to secure one of the first twelve vacancies. One vacancy will be offered for admission to the Engineer Branch and one vacancy to the Executive Branch of the Royal Indian Navy.

4. The examination will be the same for all arms of the Indian Army, i.e., Cavalry, Artillery, Signals, Engineers and Infantry. Those cadets who wish to elect for the Artillery, Engineers and Signals will be permitted to do so during their course at the Academy, at the discretion of the Commandant, provided they obtained 40 per cent of the maximum marks in each of the subjects, Lower Mathematics and Physics, at the examination.

5. Candidates for the Indian Military Academy examination must be over 18 and under 20 years of age on the 1st November, 1935, unmarried and domiciled in India. Candidates for the Royal Indian Navy examination must be over 17 and under 19 years of age on the 1st of May 1935, unmarried and domiciled in India. A candidate who desires to appear at the examination is required to submit his application in the prescribed form with the necessary documents on or before the 1st July 1935, in accordance with the instructions given on that form. Copies of the Rules and the Application Form, etc., may be obtained from the Secretary to the Public Service Commission, Kennedy House Annexe, Simla.

THE FACT THAT AN APPLICATION FORM HAS BEEN SUPPLIED, OR WHATEVER DATE, WILL NOT BE ACCEPTED AS AN EXCUSE FOR THE LATE SUBMISSION OF AN APPLICATION. CANDIDATES WHO DELAY THEIR REQUESTS FOR FORMS UNTIL A LATE DATE WILL DO SO AT THEIR OWN RISK.

6 Applications should be sent by registered post. If a candidate fails to register his application, he does so at his own risk. If a candidate desires an acknowledgment, he should also send his application "registered, acknowledgment due."

NOTE.—If any candidate has appeared at the March/April 1935 Indian Military Academy examination and, in the event of his not being successful thereat, wishes to appear at the October Indian Military Academy and Royal Indian Navy examinations, he may submit his application by the prescribed date without waiting for the result of the former examination. Should he have been successful his candidature for the October examination(s) will be cancelled.

D. REYNOLDS,
Secretary, Public Service Commission.

IV

SYLLABUS

OF SUBJECTS FOR THE ENTRANCE EXAMINATION TO THE INDIAN MILITARY ACADEMY, DEHRA DUN, AND THE ROYAL INDIAN NAVY.

PART I

1. *Interview and Record.*—The object of the interview is to ascertain whether the candidate is suitable in respect of personality and other matters for the position of a commissioned officer.

2 *English.*—The questions will be designed to test the candidate's understanding and command of the language. A passage will usually be set for summary or précis.

3. *General Knowledge.*—The questions will be designed to test the candidate's knowledge of and interest in current events and in such other subjects as should be within the knowledge of Indian candidates of the prescribed age. The paper may include a general question or questions on literature.

4. *Elementary Mathematics.*—(i) Arithmetic, including problems about money, Imperial and metric weights and measures, mensuration, percentages and averages.

Knowledge of recurring decimals, scales of notation, stocks and shares, foreign exchange and true discount is not required. Contracted methods are not required; when an approximate result is required candidates may work with all the figures supplied or make legitimate discards at any stage. The arithmetical rules for square and cube root are not required.

An arithmetical result may be required to a certain approximation or the data may themselves be only approximate. In such a case to give the result to a greater degree of accuracy than is asked for, or is justified by the data, will entail loss of marks. Candidates are expected to understand such phrases as "three significant figures," "four-figure accuracy."

(ii) A sound appreciation of the following properties of plane figures will be expected, but proofs of these properties will not be asked for:—

Properties of angles at a point, *e.g.*, that vertically opposite angles are equal.

Congruence properties of triangles, *i.e.*, the nature and number of the conditions that determine a triangle.

The conditions of similarity of two triangles, *i.e.*, the conditions which determine the shape of a triangle.

The following plane loci: the locus of a point equidistant from two fixed points, and the locus of a point within a given angle at equal perpendicular distances from the arms of the angle.

The condition of the parallelism of two straight lines in its various forms.

Projection properties of parallels, the measurement of incommensurables not being required.

Perimeter and area of a circle.

Surface-areas and volumes of prisms, cylinders, pyramids, cones, with such simple problems on these figures as can be solved by the geometrical properties mentioned in this and the next paragraph. Surface-area and volume of a sphere.

The representation of the simplest three-dimensional figures by means of plan and elevation.

(iii) If the following properties a sound appreciation will be expected, and proofs may be asked for. Candidates may base their proofs on the properties mentioned in the preceding paragraph or on other grounds :—

The Angle-sum property of a triangle.

Properties of the parallelogram.

Solution of right-angled triangles by drawing and by the use of tables of trigonometrical functions.

Pythagoras' theorem and the converse.

Areas of triangles, quadrilaterals, etc.

Simple properties associated with symmetry.

Simple properties of angles, viz., angle properties, rectangle properties, properties of chords and tangents.

Similar figures.

Measurements suitable for determining the position of a point in a plane, or in space.

Measurement of the angle between two planes, and between a line and a plane.

(iv) Algebraic calculation in connection with the above geometrical properties and with other problems, including the expression of an arithmetical generalisation in a formula, the interpretation of a formula, evaluation of a formula for numerical values of its variables; linear and quadratic equations with numerical co-efficients, simple instances of varying magnitudes, statistical and mathematical, treated by means of graphs and otherwise; inversion of a formula (or change of the subject of a formula); use of logarithms; gradient of a graph.

A knowledge of algebraic square root and the theory and use of negative and fractional indices will not be expected. Questions will not be set upon lowest common multiple or highest common factor. Little skill is expected in algebraic manipulation, as, for instance, in long multiplication and division, factorisation, transformation of expressions, identities, inequalities, and the simplification of fractions; only such manipulation will be expected as arises naturally out of simple problems.

(v) *Mode of Treatment.*—(a) Grasp of elementary principles and readiness in practical application will be looked for. Numerical results should be worked out to a few significant figures. Candidates may be required to apply checks of the accuracy of particular results; they may also save themselves from blunders by applying checks even when not demanded. No great skill in the use of drawing instruments will be expected, but slovenly work will entail loss of marks.

(b) Credit will be given for the clearness and aptness of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases. The use of mathematical symbols and of well-established abbreviations such as 'lb.' and 'cm.' is permissible, a calculation can often be exhibited clearly without the use of words, and a tabular form is often appropriate; but abbreviated sentences such as are appropriate in telegrams will involve loss of marks. Mathematical tables will be supplied, if necessary.

8. Geography.—The general and political geography of the world. One-half of the paper will be on general elementary geography and the other half on Imperial geography. A special knowledge of India and neighbouring countries will be expected. Questions on physical and economic geography may be set. The paper will not be of an advanced character.

PART II.

N.B.—Although ranks between the various subjects of Part II is not restricted, candidates who aspire to commissions in the Artillery or the Engineers or the Signals are reminded that they must take Lower Mathematics and Physics.

6. French.—Translation from French into English and from English into French; free composition; oral conversation. 225 marks are allotted to the paper or papers on the subject and 75 marks for oral conversation.

7. German.—As for French. German should be written in German characters.

8 and 9. Mathematics.—Credit will be given for the clearness and aptness of the language of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases.

The use of mathematical symbols and of well-established abbreviations like lb and cm is permissible, a calculation can often be exhibited quite clearly without the use of words, and a tabular form is often appropriate, but abbreviated sentences such as are customary in telegrams will involve loss of marks. Mathematical tables will be supplied, if necessary.

8. Lower Mathematics—Arithmetic.—Arithmetic, including simple methods of dealing with statistical data.

The mensuration of plane areas and simple solid bodies. The use of calipers, vernier and other simple measuring instruments. The determination of area, volume and density by displacement, by weighing, etc.

The composition and resolution of velocities and accelerations in one plane, rectilinear motion under uniform acceleration, the conservation of linear momentum, work, energy and power, graphical treatment of varying velocities, accelerations and forces.

Proofs of the parallelogram and triangle of forces, and of the principle of moments will not be asked for.

[Typewriting qualification for clerks in Government offices.]

No. 93.—The attention of prospective candidates for employment in clerical posts under the Government of Madras is drawn to the fact that under the Statutory Rules governing recruitment to such posts no person will be eligible to be considered for appointment as clerk after the 1st January 1937 unless he has passed the Government special test in typewriting by the higher grade, or by the lower grade at an examination held after the 1st January 1933.

Candidates who have not qualified in typewriting will not be included in the Commission's list of approved candidates unless they so qualify before the end of 1934; and these candidates will get no chance of appointment, even if they acquire the typewriting qualifications, until after those who have qualified themselves before appearing for the Commission's examinations.
